## 【Abstracts from the Lectures at the 10th. Year Anniversary of the Establishment of the Tuberculosis Research Institute, Kyōto University】

Pathological Studies on the Origin and the Development of Pulmonary Tuberculosis in Adults.	T. YAMORI.....	3
The Clinical and Pathological Study on the Tuberculous Meningitis treated with Streptomycin	I. SAGAWA.....	5
Some Observations on the Development Process of Mycobacterium Tuberculosis.	S. UEDA.....	5
Scientific Achievement of the Tuberculosis Research Institute, Kyōto University during past 10 Years.	S. HATTORI.....	6
The Research and the Study.	R. TORIKAI.....	7
Studies on the Cleaning of Tuberculous Cavity by Artifical Contamination.	S. TSUJI.....	8
The Direct Surgical Method of Treatment of the Pulmonary Tuberculosis, especially the Lobectomy and the Cavernostomy.	C. NAGAISHI.....	12
Studies on the Chemotherapy of the Pulmonary Tuberculosis.	M. NAITO.....	16
The Relation between the Type of the Pulmonary Tuberculosis and the Mode of the Treatment.	T. IWAI.....	17

## 【Reports concerning Director's Research (Director of the Tuberculosis Research Institute, Prof. Dr. E. KONDŌ)】

On the Inhibitory Effects of Tuberculous Pus against Tubercle Bacilli.	Y. FUJITA.....	24
On the Myelograms of Bone-Joint Tuberculosis.	T. ŌTSUKA.....	37
Hematological Changes before and after the Debridement of Bone-Joint Tuberculosis Foci.	T. ŌTSUKA.....	42
Roentgenological Findings of Chests before and after the Debridement of Bone-Joint Tuberculous Foci.	M. MORI.....	51
Results of Operative Treatment of Bone-Joint Tuberculosis (Debridement of Tuberculous Foci.)	E. KONDŌ, K. YAMADA, N. YAGATA, M. MORIYAMA, M. SHIMADA and H. ŌISHI.....	54

## 【1st. Division】 Division of Prophylactic Medicin. (I. SAGAWA)

Streptomycin Resistance in Salmonella Enteritidis.	K. TANAKA.....	62
Streptomycin Treatment of Childhood Tuberculosis, especially of Tuberculous Meningitis.	I. SAGAWA et al.....	69

## 【2nd Division】 Division of Physico-medical Clinic. (T. IWAI)

Pathological Studies on the Age Variation of Tuberculous Primary Complex Formation.	T. IWAI, T. YAMORI, H. UNO and H. DEME.....	80
---	---	----

Anatomical Tuberculosis and Tuberculin Reactivities of Inhabitants in Kyōto City.

T. IWAI, T. YAMORI, H. UNO and H. DEME..... 82

A New Examination Method of the Phagocytic Power of Neutrophil Leucocytes.

T. YAMORI, Y. KANBE and J. HADA..... 86

【3rd. Division】 Division of Chemotherapy. (M. NAITŌ)

Influences of TBI on the Liver Functions of Patients with Pulmonary Tuberculosis.

C. TAKI, K. MORI, S. IMAI and S. KAMADA..... 91

Influences of Streptomycin, TBI and PAS on the Tissue Respiration of Liver and Kidney of Tuberculosis Rabbit.

C. TAKI..... 95

TBI Resistance of Tubercle Bac. in Sputa of Tuberculous Patients treated with TBI.

C. TAKI..... 96

Influences of Tuberculin on the Chemotherapy of Tuberculosis.

N. MAEKAWA and H. KAIYŌ..... 98

Antibacterial Function of TBI in Vivo. A. SHIODA, S. TSUKUMA and M. ŌTA.....100

Studies on the Nature of Acid-fastness of Tubercle Bac.

T. KOMATSU and S. TSUKUMA.....102

The Intravenous Administration of PAS in the Treatment of Pulmonary Tuberculosis.

M. NAITŌ, K. TŌKUSHIMA, M. ŌTA and Y. TAI.....105

Influences of Benemid on Concentrations of PAS in the Blood. K. TŌKUSHIMA.....107

Influences of Vaccins on Tuberculous Lesion.

H. KAIYŌ.....108

Influence of Chemotherapeutica on Tubercle Bac. in Liquid Medium Containing

• Blood Serum in High Concentrations.

A. SHIODA.....110

Bacteriostatic Effect of Sera of the Animals, given Antituberculous Chemotherapeutica.

A. SHIODA.....111

Bacteriostatic Effect of some Antituberculous Chemotherapeuticum in Liquid Medium containing Water Extracts of Various Organs.

A. SHIODA.....112

Growth of Tubercle Bac. in the Liquid Medium containing Water Extracts of Various Organs. of the Animals, given Antituberculous Chemotherapeutica.

A. SHIODA.....113

【4th. Division】 Division of Surgery (C. NAGAISHI)

The Cavernectomy and the Enucleation of the Tuberculoma, as a New Surgical Method of Treatment

C. NAGAISHI, T. TERAMATSU, Y. YASUBUCHI and M. YOSHIZUMI.....117

The Results and the Indication of the Cavernostomy in Cases of the Pulmonary Tuberculosis.

Y. AOYAGI, C. NAGAISHI, T. TERAMATSU, and

K. KOBAYASHI, H. MAIZURU, Y. YASUBUCHI, M. YOSHIZUMI.....118

Advocation of a New Combined Method of the Thoracoplasty and the Direct Surgical Treatment of the Pulmonary Tuberculous Cavity.

Y. AOYAGI, C. NAGAISHI, T. TERAMATSU, K. KOBAYASHI, H. MAIZURU,

Y. YASUBUCHI, and M. YOSHIZUMI, T. KAGAWA, K. KUBO.....121

A New Open Treatment in Cases of the Pulmonary Tuberculosis.

- T. TERAMATSU, K. KOBAYASHI, H. MAIZURU, and T. YAMAMOTO.....122
- Analytical Studies on the "Failures" of the Lobectomy and the Pneumonectomy.  
K. OGAWA, N. NAGASAWA, M. YAMASHITA, and N. YOSHIDA.....123
- Re-investigation of the Pneumothorax in Cases of the Pulmonary Tuberculosis  
Cavity. N. NAGASAWA.....126
- Influences of the Binding of the Bronchus on the Pulmonary Tuberculosis of the  
Rabbits. Y. YASUBUCHI, M. YOSHIZUMI and S. YUASA.....129
- Pathologic-anatomical and Pathologic-histological Studies on the Bronchial  
Tuberculosis in Cases of the resected Lung.  
K. OGAWA, N. NAGASAWA, M. YAMASHITA and N. YOSHIDA.....131
- Studies on the Excretive Source of the Tubercle-bacillus by means of Bronchoscopy.  
K. OGAWA, N. NAGASAWA, M. YAMASHITA  
N. YOSHIDA, M. ŌTA and T. KONISHI.....133
- Solid Observations on the Normal Lung and the Tuberculosis Affected Lung by  
means of the Pouring Method of Intermediate Polymer of Methylmetacrylate  
(1st. Report.) The Topographic-anatomical Relations between Bronchus and A.  
Bronchialis  
K. OGAWA, N. NAGASAWA, M. YAMASHITA  
Y. ITŌ, Y. ŌTA and S. TAZIRI.....134
- Clinical and Experimental Studies on the Streptomycin in Cases of the Surgical  
Treatment of the Pulmonary Tuberculosis. Y. YASUBUCHI.....136
- Observations on the Tubercle-bacillus by means of Phasecontrastmicroscope  
(3rd. Report) S. YOKOYAMA.....138
- Studies on the Chemotherapy of Tuberculosis, especially on the Synthesis and  
the Anti-tuberculosis Actions of Hydroquinone-mono-alkylether (5th. Rep.) , p-  
Aminophenol-alkylether (6th. Rep.), Resorcin-mono-alkylether (7th. Rep.), and o-  
Aminophenol-alkylether (8th. Rep.)  
R. NOZU, H. WATANABE, S. OKA, S. KUWATA, C. NAGAISHI,  
T. TERAMATSU, K. SHIBUYA, H. ARIMA, K. KOBAYASHI,  
and H. MAIZURU.....139
- Studies on the Chemotherapy of Tuberculosis by means of p-Methoxybenzaldehy-  
dthiosemicarbazone (TBII) (2nd Rep.) K. SHIBUYA.....143
- [5th. Division] Division of Biological Chemistry (S. TSUZI)
- Study on the Cleaning of Tuberculous Cavity by Artificial Contamination (2nd.  
Report) Experiment on Microorganisms, which were Isolated from Gargarisms of  
Healthy Men. Y. NAMIKAWA.....147
- Experimental Study on the Pathogenicity of Tubercle Bacillus. (1st. Report)  
T. HEKI, K. YASUHIRA and H. TANAKA.....150

## Study on the Improvement of Slide Culture Method.

H. YAMAMOTO, A. KUMASHIRO, T. ITO and O. IMAI.....153

## A Micromethod of Slide Culture Method.

Y. NAMIKAWA.....156

## Biochemical Study on Sputum (1st. Report) On the Relation of P-Quantities in Sputa with the Conditions of Tuberculous Patients.

K. SUGIMOTO.....158

## Meniere-syndrome, which is occasionally founding Pulmonary Tuberculosis.

J. NISHIOKA, K. SUGIMOTO, H. YAMAMOTO and T. ITO.....160

## A New Treatment of Tuberculous Cervical Lymphoma.

J. NISHIOKA, S. KUMASHIRO, T. HEKI, S. WATANABE, K. HIRAKAWA.....162

## Study on the Thickness of Chest Wall.

J. NISHIOKA, S. WATANABE, K. ITO, M. KOMATSU, and M. SHIMIZU.....164

## 【6th. Division】 Division of Pathology (T. YAMORI)

## Pathological Studies on the Origin of Pulmonary Tuberculosis in the Adults

(Sequel 1) Supplemental Studies on the Tuberculous Exogenous Reinfection.

(Sequel 2) Supplemental Studies on the Hematogenous Pulmonary Tuberculosis.

(Sequel 3) Supplemental Studies on the Bronchogenous Spreading from the

## Primary Focus.

H. UNO.....168

## Studies on the Chemotherapy of Tuberculosis by Various Heterocyclic Compounds.

(3rd. Report) On the Tuberculostatic Activity of Benzothiazole Derivatives (II)

T. INABA.....180

(4th. Report) On the Tuberculostatic Activity of Tiazole Derivatives. (II)

T. INABA.....184

( 5th. Report) On the Tuberculostatic Activities of Pyridine, Pyridothiazole and Phenyl-Pyridylether Derivatives (II)

T. INABA.....187

## 【7th Division】 Division of Bacterio-Serology (S. UEDA)

## Studies on the Saprophytic Mycobacterium.

M. OHIRA.....192

(1st. Report) Biological Properties.

(2nd. Report) Pathological and Immunological Studies, etc.

## On the Inoculation Tuberculosis of Children following the Injection of Typhoid

Fever Vaccine (Bacteriological Study) M. SHIRAIISHI and S. KATAYAMA.....210

## Some Observations on the Development Process of Mycobacterium Tuberculosis.

O. YAMADA.....212

## Experiments on the Deprivation of the Acid-fastness of Mycobacterium Tuberculosis.

O. YAMADA.....214

## Morphology and Development Process of the Saprophytic Mycobacterium.

Y. ITO.....216
